

At TLC Preschool we are learning through play, while preparing for kindergarten. Activities in art, music, science, literacy and drama stimulate your child's natural curiosity and enthusiasm for exploration and discovery.

Our program is designed to provide a nurturing and exciting environment promoting the physical, social, emotional and intellectual development of young children through age appropriate play and learning activities.

The preschool daily routine includes planned activities and materials focusing on language development, music, art, science, nature, gross motor and fine motor development, and the development of positive social skills. Weekly activities are based on a theme relevant and of interest to young children.

TLC Preschool is a private preschool for children ages 2.5 to 6 years old. Parents do not need to participate in the classroom on a regular basis, however we value involvement of parents on special projects, field trips, special events, and craft prep. We encourage parents to share their own talents and interests whenever possible.

“Start your Child's Education of with T.L.C. “

Our Motto

“Encouraging children to LOVE, LAUGH and LEARN through PLAY”
